Dear Paul,

You will recall I asked you for all the CDs relating to the "unts of which you know. You sent me 8 citations. In response to my request before I wrote you the Archives has supplied documents from 5 files besides those you listed, two you listed ( CD106:261 and 1306: 103-5-you omitted 104 but it is relevant). Much to my surprise, they also supplied CD7:481-2 (you indicated 481 is withheld). The others I have, in the event you want them (and I haven't had time to read them) are: CD1267, three pages (two different reports),1322c, 2 pp.

I have not had a chance to think about this very much, but I have a strong hunch that requests made not by CD numbers, but by other designations, like to the name files, will yield much not otherwise available. At least I think there is a chance of it. If you do not understand, I'll be more explicit.

If you do understand, why do not several of you pick out a few we'd like to have and write Mike Simmons, Room 6W3, and ask for them, from the name files or the proper working files?

I enclose this one. You can see how it is filed.

I have a borrowed machine while mine is being repaired, and it is working rather well. This is not the best copy they supplied me. My supply of paper is rapidly shrinking, and I do not have the money with which to buy more, so I'll appreciate it if you'd copy for Gary, who is keeping such a file.

I'd also appreciate your opinions on why this was withheld, why they say and your opinion on its legitimacy.

Sincerely,
